## Profile

As a Frontend React Developer with 1 year of experience, I am passionate about creating user-friendly and intuitive interfaces. With a strong foundation in React, HTML, CSS, and JavaScript, I have developed and maintained multiple responsive web applications, focusing on high-performance and scalability. I am committed to staying up-to-date with the latest technologies and trends, and I thrive in collaborative environments where I can contribute to team success through open communication and sharing of ideas.

## Work experience

### Software Engineer | Freelance

*April 2022 – present*

- Worked closely with clients to gather and analyze their project requirements and translate them into user-friendly and visually appealing web applications.
- Developed custom solutions that matched the client's expectations, with a focus on creating a pixel-perfect and responsive site based on the Figma design.
- Utilized modern front-end technologies and frameworks, such as Redux, React Router, and Material-UI, to optimize website functionality and user experience.
- Meticulously tested and debugged my code to ensure that every line was error-free and of the highest quality possible.
- Managed version control using Git and GitHub, enabling remote collaboration with other developers.

## Education

Bachelor of Arts: Foreign philology

V. O. Sukhomlynskyi National University of Mykolaiv

2019 – 2023

Mykolaiv, Ukraine

## Courses

(EPAM) Front-End Self-Paced Online Program
